My dear Mr Cook

Please refer to your letter No. 616 dated the 2nd Instant. Don't you think that Mr. V. Venkatesa Iyengar's leave application should be supported by the Comptroller's certificate, and that his leave should be sanctioned and notified by Government? If you agree with me, may I request you to kindly obtain the Comptroller's certificate and send it to me as early as possible. At any rate, such information as may be available in your office re. last leave taken and leave now due, may be sent to me and I will ask the Comptroller if he can verify it or send me the usual certificate.

Yrs very sincerely

Sir,

I have the honor to submit that Mr. N. Venkatesa Iyengar Chief Observer in the Central Observatory has been granted Privilege leave for 2 months from the 21st February to the 20th April 1900 and that Mr B. N Gajendrachar 1st Assistant Observer has been appointed to be in charge of the current duties usually devolving on Mr. N. Venkatesa Iyengar in addition to his own duties.

He is well qualified to undertake this in virtue of his experience

experience of our Meteorological work from the very commencement and of the highly satisfactory manner in which he has all along discharged whatever duties have been entrusted to him. As this charge will entail a very substantial increase of responsibility and work on Mr B. N. Gandachar during Mr N. Venkatesa Iyengar's absence, I have the honor to request that, in accordance with article 107 of the Mysore Service Regulations, Government may be pleased to sanction a charge allowance of Rs 27/8/- = 1/10 of Rs 275 per month to Mr B. N. Gandachar during the 2 months' privilege

privilege leave absence of the Chief Observer. The present pay of Mr. B. N. Gandachar is Rs 50/- and that of Mr. N. Venkatesa Iyengar Rs 275 but the relative value, even ordinarily, of the services of Mr. B. N. Gandachar to the Observatory in comparison with those of the Chief Observer is much greater than is indicated by their difference of pay.

I have the honor to be

Sir,

Your most obedient Servant,

Director of Meteorology
